American Railroad Journal.

New York, Saturday, September 6, 1879.

The James McHenry Matter.

The following cable despatch denying the failure of James McHenry, of London, was received from him on the 2d inst. by James A. Reilly, for twenty five years his agent in this city:

"Surprised at sensational articles in New York papers just received. I have made no failure, no bankruptcy. I have no responsibility outside of Cleveland purchases and Spanish Royal family. I have placed my property with trustee for my protection during appeal from Erie judgment.

(Signed) "JAMES MCHENRY."

The judgment referred to in the above cable despatch required the payment of £268,989 to Erie, and on the other hand required the delivery to McHenry to $1,147,700 C. C. C. and I. shares, and $809,000 Western Extension certificates, on payment to Erie of some £170,000. Execution could be stayed only by a deposit in Court of £50,000 sterling. Mr. McHenry offered to pay £170,000 and take up the above shares and certificates. He made this offer, and in regard to its refusal Mr. McHenry made the following statement on the 16th of August:

"Had the offer been accepted, I should have been in a position to make the deposit in Court, but it was absolutely refused, and it, therefore, was to the interest of all concerned to keep the property together and not allow judgment to be enforced—the control of the A. & G. W. and C., C., C. & I. being the objective point of all concerned."

Bangor and Bucksport Railroad.

The Bangor (Me.) Commercial says the Bangor and Bucksport Railroad, now leased to the European and North American Railway, is to be changed to a narrow gauge road of three feet and equipped with first class narrow gauge stock. The lease with the European and North American Railway Company expires on the first day of October. R. P. Buck of New York and Sewall R. Swazey of Bucksport are the trustees of the Bangor and Bucksport Railroad. Mr. Buck is really the principal owner of the road, having bought out many of the other bondholders. The rolling stock will be on the spot, and as soon as the road passes out of the jurisdiction of the European and North American Railway the changes will be made. The road will be managed by Mr. L. L. Lincoln of Augusta, who has perfected a lease of the same for a term of years. Mr. Lincoln is a railroad man of considerable experience. He was for some years Superintendent of the First Division of the Maine Central Railroad.

Inter-Oceanic Canal.

At the general meeting in Saratoga on the 30th ult. of the association for the advancement of science, Commander E. P. Lull, U. S. N., read a paper on "The Inter-Oceanic Canal Problem." The route through Nicaragua includes the use of Lake Nicaragua, and a canal from the lake to the Pacific ocean would be 163.10 miles long, only 7 miles of which would be difficult. The canal would follow the course of the Rio Grande, and there are 52 miles of navigation on Lake Nicaragua, which would need little work. The total length from the Carribbean Sea to the Pacific is 180.7 miles. The Panama route would require a feeder near the summit, with 13,000 feet of tunnel and two aqueducts. The cost of the breakwater and seawall at Aspinwall is estimated at $94,000,000. He criticised the plans of the French congress, and did not regard a sea level canal as practicable.

Somerset and Mineral Point Railroad.

The Baltimore and Ohio Railroad Company has purchased and taken possession of the Somerset and Mineral Point Railroad, which intersects the Pittsburgh and Connellsville Railroad at Mineral Point. The road purchased is ten miles in length. The price paid was $60,000. It is contemplated to extend the Somerset and Mineral Point Railroad to Johnstown, Cambria county, from Somerset, Pa., at an early day, and Mr. Charles Donnelly has formally qualified as President, and Mr. McCulloh, of Greensburg, and Hons. Wm. H. Koontz and C. C. Musselman, of Somerset county, have been sworn in as directors of the Somerset and Cambria Railroad Company. The road was purchased from Mr. Chris. Long.

Pennsylvania Coal Yield.

At one of the sub sessions of the American Scientific Association at Saratoga on the 1st inst., P. W. Shaffer, of Pottsville, read a paper on the anthracite coal fields of Pennsylvania and their rapid exhaustion. He said that mining began in 1820, with 365 tons, and the product now marketed is about 20,000,000 tons annually. The yearly product is about 50,000,000 tons, of which 30,000,000 are wasted. It is estimated that in 186 years, or in the year 2085, the anthracite fields will be exhausted. We will then have to fall back on the bituminous coal fields, which have an area of 200,000 square miles—400 times as much as the anthracite fields. He doubted if Great Britain can increase its present annual production of bituminous coal of 136,000,000 tons.

☞ After the 1st of October the Columbus and Dennison and the Pittsburg and Dennison divisions of the Pittsburg, Cincinnati and St. Louis Railway are to be operated under one Superintendent.

☞ The Treasurer of the United States, as ex officio Commissioner of the Sinking Fund for the District of Columbia, has issued a statement showing that the total funded indebtedness of the District of Columbia and the late corporations of Washington and Georgetown is $21,688,323 33.

The stocks and bonds outstanding on which interest has ceased, there being funds for the payment of the principal and interest deposited in the United States Treasury, amount to $159,782 66. The total reduction of the funded debt since July 1, 1878, is $418,326 67, and the total reduction in the annual interest charge since July 1, 1878, is $30,154 11.

Buffalo and Lake Huron Railway.

REPORT.

The balance of revenue, including the balance from the previous half year, after providing for the payment of interest on the bonded debt, is £13,465, which will allow of a dividend of 4s. 9d. per share, free of income tax, carrying to the next account £733. The securities on hand at the date of the last report have been considerably reduced during the half year by the sale of bonds to provide for the coupons of £7,500 old bonds sent in for exchange. In consequence of the extreme ease of the money market, and the increasing values of the company's securities, the directors have deemed the occasion opportune for the redemption of the 6 per cent redeemable bonds by the issue of an equal amount of 5½ per cent perpetual bonds, £297,600 bearing interest from March 1, 1880, of a similar character and incident, secured by a first mortgage upon the property of the company. Of these the 6 per cent bondholders have already expressed their readiness to the extent of £159,800, leaving £137,800 to be paid off at par. The directors are prepared, therefore, to receive applications from the shareholders for this amount on the terms of the enclosed circular issued. The directors retire at this meeting, in accordance with the statute, but, being eligible, offer themselves for re election.

ARTHUR ASHTON, Chairman.

August 16, 1879.

Northern Central Railway.

At the Annual Meeting of the Stockholders of the Northern Central Railway Company, held in Baltimore on the 27th of February, the following Report of the Directors was presented and adopted:

OFFICE OF NORTHERN CENTRAL RAILWAY CO.,
BALTIMORE, February 18, 1879.

To the Stockholders of the Northern Central Railway Company:

Your directors submit the following report of the operations of the company for the year ending December 31st, 1878.

The revenue of your main line, with its leased and controlled roads, was as follows:

From passengers	$657,005 81
" freight	2,837,599 44
" express	65,611 48
" mails	43,815 92
" miscellaneous	119,424 25
Total	$3,723,456 90

The operating expenses were:

For conducting transportation	$862,793 57	
For motive power	666,988 01	
For maintenance of way	735,257 75	
For maintenance of cars	276,379 84	
For general expenses	63,078 54	
		2,604,497 21
Leaving as net earnings		$1,118,959 69

In comparison with the year 1877 there was a decrease in gross earnings of $346,930 88, equal to 8.52 per cent.

Total expenses for 1877	$2,745,924 84
The expenses for 1878 were	2,604,497 21
Showing a decrease in expenses of, being 5.15 per cent less than 1877.	$141,427 63

The decrease in net earnings was $205,503 25, or 15.51 per cent.

In addition to the net earnings as above stated of		$1,118,959 69
There was received from dividends and interest		211,179 67
Contribution for operating Elmira, Chemung, and Canandaigua Divisions, (from Pennsylvania Railroad Company)		147,873 09
Royalty on coal mined—Shamokin Division		32,470 76
Total net receipts		$1,510,483 21

Which have been applied as follows:

Interest on lien to State of Maryland	$90,000 00	
Interest on $1,490,000 mortgage bonds, due 1885	89,400 00	
Interest on $1,126,000 mortgage bonds, due 1900	67,560 00	
Interest on $2,804,000 gold mortgage bonds, due 1900	168,240 00	
Interest on $4,473,000 Consolidated General Mortgage gold bonds, due 1904, twelve months, from January 1, 1878 ..... $268,380		
And on $45,000 drawn bonds, 6 months, to July 1, 1878. 1,350		
	269,730 00	
Interest on $1,000,000 Second General Mortgage, 6 per cent Convertible bonds	60,000 00	
Interest on $3,000,000 Second General Mortgage, 5 per cent bonds	150,000 00	
Total interest on entire mortgage indebtedness of the company	$894,930 00	
Interest, discount, gold premiums, taxes, etc.	56,316 04	
Rents and interest on mortgages & ground rents	49,982 44	
Rental Shamokin Valley and Pottsville R. R.	52,167 00	
Interest and gold premium on bonds Shamokin Valley and Pottsville Railroad	140,525 00	
Interest on equipment Shamokin Valley and Pottsville Railroad	10,386 35	
Rental Elmira and Williamsport Railroad	165,000 00	
Interest on equipment Elmira and Williamsport Railroad	30,042 74	
Dividends Chemung R. R.	22,800 00	
Interest on equipment Chemung Railroad	12,896 73	
Rental Elmira, Jefferson and Canandaigua R. R.	25,000 00	
Interest on equipment Elmira, Jefferson and Canandaigua R. R.	25,539 51	
		1,485,585 81
Balance of net income for 1878, carried to credit of Profit and Loss Account		$24,897 40

As it was not deemed wise to increase your capital account at present, all expenditures for construction during the year, including the cost of erecting a pier and warehouse for rolling freight at Canton, were charged directly in expense account, notwithstanding which it will be observed that the net income of your property for the year exceeded all charges of every kind by the sum of $24,897 40.

In the following tables are given the sources of revenue and expenses of the several lines of the company for the year 1878, as compared with those of 1877:

	Main Line.	Green Spr. Br.	Sham. Div.	Elmira Div.	Chem. Div.	Canand. Div.	Total.
Receipts from—							
Freight	$1,952,474 32	$4,225 01	$255,679 02	$342,803 12	$99,025 61	$183,892 36	$2,837,599 44
Passengers	427,990 56	1,886 23	16,733 28	104,583 62	44,590 45	61,271 67	657,005 81

Elmira Railroad	3,686,258	4,123,491
Chemung Railroad	1,695,237	1,826,264
Canandaigua Railroad	2,189,290	2,483,686
Total	24,122,837	25,726,768

Decrease, 1,603,931, or 6.23 per cent.

The amount received for the transportation of passengers in 1878 ..$657,005 81
The amount received for the transportation of passengers in 1877... 698,177 40

Decrease $41,171 59

—or 5.9 per cent.

The number of tons of freight moved was as follows:

	1878.	1877.
Northern Central Railway...	2,991,586	2,695,030
Green Spring Branch.....	10,972	15,360
Shamokin Railroad	759,522	938,192
Elmira Railroad.....	793,649	875,104
Chemung Railroad.....	730,737	928,106
Canandaigua Railroad.....	516,905	708,379
Total	5,803,371	6,160,171

Net decrease, 356,800, or 5.792 per cent.

TONS ONE MILE.

	1878.	1877.
Northern Central Railway.	192,579,792	172,784,748
Green Spring Branch....	78,581	107,159
Shamokin Railroad	14,151,871	18,135,520
Elmira Railroad.....	39,197,023	39,705,541
Chemung Railroad.....	13,567,422	18,039,588
Canandaigua Railroad...	20,662,053	29,030,178
Total	280,236,742	277,752,734

Net increase, 2,484,008, or .894 per cent.

The earnings per mile of road were as follows:

Northern Central Railway—			
Baltimore Division.....	91	miles,	$18,277 01
Susquehanna Division...	47	"	19,210 12
Main Line.....	138	"	18,594 81
Green Spring Branch.....	9	"	706 62
Shamokin Division.....	28	"	9,797 62
Elmira Division.....	78	"	6,045 67
Chemung Division.....	22	"	6,777 71
Canandaigua Division.....	47	"	5,446 99

The tonnage of the main line of the Northern Central Railway was increased 296,556 tons, with a decrease in earnings of $52,515 54.

On the Shamokin Railroad the decrease in tonnage was 178,670 tons, decrease in earnings, $17,146 58. On Elmira Railroad, decrease in tonnage, 81,455 tons, decrease in earnings, $75 006 98. On Chemung Railroad, decrease in tonnage, 197,369 tons, decrease in earnings, $42,541 39. On Canandaigua Railroad, decrease in tonnage, 191,474 tons, decrease in earnings, $127,184 80. On Green Spring Branch, decrease in tonnage, 4,388 tons, decrease in earnings, $697 93.

The total number of tons and tonnage mileage, and the revenue derived from the same, on all lines of the company, were:

	Tons.	Money.	Tons 1 mile.	Rate per ton per mile.
1878.	5,803,371	$2,837,599 44	280,236,742	1.013
1877.	6,160,171	3,152,692 66	277,752,734	1.135
Inc..	.....	.....	2,484,008	.....
Dec..	356,800	$315,093 22	.....	.121

The coal tonnage of the Main Line in 1877 was 899,151 tons, and in 1878, 871.232 tons. There was an increase in the trade going on to the Pennsylvania Railroad at Marysville and Dauphin of 63 453 tons. There was a decrease of 5,323 tons to points on the Cumberland Valley Railroad. The total tonnage to Baltimore was 286,017 tons, a decrease of 28,573 tons in 1878.

The coal tonnage of the Shamokin Branch in 1878 was 655,581 tons, in 1877, 818,178 tons—showing a decrease of 162,597 tons.

The coal tonnage of the Elmira and Williamsport Railroad in 1878, was 463,029 tons, and in 1877, 613,426 tons—a decrease of 150,397 tons. The decrease from the McIntyre Mines, near Ralston, was 18,381 tons. In the north bound anthracite trade there was a decrease of 70,302 tons.

The coal tonnage of the Chemung Railroad was decreased from 706,520 tons in 1877 to 487,086 tons in 1878—a total decrease of 269,434 tons.

On the Canandaigua Railroad the coal tonnage of 1877 was 524,068 tons, in 1878, 275,061 tons—a decrease of 249,007 tons. There was a decrease of 12,050 tons in shipments to Coal Point, at Watkins, New York, and a net decrease of 236,957 tons in shipments to other stations.

On the Green Spring Branch the coal tonnage of 1877 was 5,748 tons, in 1878, 5,302 tons—a decrease of 446 tons.

The falling off in the revenue of the freight traffic of your several roads, for the year 1878, as compared with the previous year, is mainly attributable to the decrease both in the anthracite and bituminous coal tonnage.

The decrease in the amount of anthracite coal carried is the result of the restriction upon the production, effected by a general agreement between the anthracite coal producing interests to which the different coal companies on your road were parties.

The decrease in the bituminous coal tonnage from the Erie Railway and Tioga and Elmira State Line Railroad, destined to points north of Elmira, as compared with the previous year, was 223,416 net tons, the decrease in revenue from this source being $52,922 92. This coal, instead of passing your road to Watkins and Canandaigua, was shipped over the Syracuse, Geneva and Corning Railroad—a road built and controlled by parties who are also interested in the mining of the coal.

The following were the results for the year 1878, of the Mineral Railroad and Mining Company:

Receipts from all sources..... $857,047 39
Expenses 795,348 15

Net earnings..... $61,699 24

The production of coal was 285,775.05 tons. This company in which your company holds two-thirds of the shares, declared a dividend of six per cent out of its earnings, the amount received by your company being $40,000.

By reference to the Treasurer's statement of the profit and loss account, it will be seen that on December 31st, 1877, the account was debited with a balance of $368,413 58. On the 31st December, 1878, the balance to the debit of the account was $276,350 18.

This reduction in the debit was caused by crediting to the account the sum of $66,666 received from the Mineral Railroad and Mining Company for royalty on coal mined prior to January 1st, 1878, and, therefore, not properly a credit to the income account for the year; also, by a credit of $500 received from the Jay Cooke estate, which two items, added to the net income of the year, $24,897 40, make up a total credit to the account of $92,063 40, against which there were no charges to make during the year.

In February, 1876, your Board created an Insurance fund for the better protection of your property from loss by fire. The plan adopted was to pay into the fund each year an amount equal to one and one-half per cent upon the estimated value of the property which it was thought necessary to insure, the amounts thus paid to the fund being charged to the operating expenses of the road. In addition to the amounts so paid in, the amount received from the Baltimore Elevator Company for the insurance of the Canton Elevator, in accordance with the lease, is also placed in the insurance fund. Out of this fund are paid the premiums to regular insurance companies on such properties as it is considered expedient to insure outside of the fund, and the amount remaining therein after such payments is invested in the bonds of the company, to provide for any losses that may occur.

By reference to the Treasurer's statement of the operations of this fund, from its creation to December 31st, 1878, it will be seen that after paying all premiums in insurance companies, the fund has a credit of $33,168 89 of which $4,683 56 is in cash, and $28,480 33 is invested in the bonds of the company.

Your Board takes pleasure in reporting that your property is in excellent condition, steady improvements having been made in all the departments of the service for several years past. There are now in the tracks of the company's various roads, 27,944 tons of steel rails, leaving 8,298 tons of iron rails in the main tracks. The motive power and rolling stock have also been kept in excellent condition.

In conclusion, the Board desire to express their appreciation of the zeal and efficiency displayed by the officers and the employees in all departments during the past year.

By order of the Board of Directors.

A. J. Cassatt, Vice President.

Manhattan Elevated Railroad.

By an arrangement which went into effect on the 1st of September, the New York and Metropolitan Elevated Railroads have been united, and the two roads, known as the Manhattan Elevated Railroad, will be designated as the Eastern and Western divisions.

The Eastern division includes the Second and Third Avenue Railroads and the Western the Sixth and Ninth Avenue Railroads. Robert Stewart has been appointed to the office of general superintendent on the Eastern division, and M. Van Brocklin general superintendent and T. T. Onderdonk assistant of the Western division.

The Volume of Trade.

According to a statement just prepared by the Bureau of Statistics it appears that the volume of trade in the seven months ending July 31, 1879, was $661,470,901 as compared with $666,806,096 in the corresponding period of 1878, showing a decrease this year of $5,335,195. It also shows that in respect to merchandise the excess of exports over imports in July, 1879, was $9,572,174, as compared with $10,662,751 in July, 1878. In the seven months ended July 31, 1879, the excess of exports over imports was $124,609,785 as compared with $166,317,286 in the corresponding period of last year.

The affairs of the Great Western Railway.

A special from London by cable to the Toronto Globe says that Col. Grey has succeeded Childers as President of the Great Western Railway Company. He has written a letter on behalf of the Board, accepting the proposal of the Grand Trunk to appoint Sir Edward Watkin as arbitrator, and to consult him with reference to the most practicable mode of effecting a joint purse arrangement with the least possible delay. General satisfaction is felt that the Great Western Board has at last yielded. The Dominion Government has given its assent to the joint purse arrangements.

☞ The coupons of the bonds of the Eastern (Mass.) Railroad Company, due September 1st, will as hitherto be paid at the Shawmut National Bank, Boston, at the rate of 3½ per cent; after which they will commence to draw interest at the rate of 4½ per cent. They were originally issued September 1, 1876, thirty years to run; three years at 3½ per cent interest, three years at 4½, and the remaining twenty-four years at 6 per cent.

☞ Mr. Vanderbilt, in his evidence at Saratoga on the 29th ult., made the important statement that he had given orders for the laying of additional tracks on the Hudson River Railroad, thus completing the four-track line of the New York Central and Hudson River combination.

Lubricants.

The choice of a lubricant is frequently ill made. Common kerosene oil is too often injudiciously used in place of a thicker or more bland oil, because the heat produced by the friction rapidly vaporizes the oil and leaves the journal dry. Crude petroleum for the same reason is fitted only for very slowly revolving journals, such as water wheels. For very heavy machinery or for gearing, tallow and black lead rubbed up together is the best lubricant, and is also the best for wagon and carriage axles, during the hot weather. For light running machinery, sperm oil is the best; good olive oil that has not become rancid and acid is perhaps the second best, and for winter use lard oil is excellent, but is rather too drying to be a first class lubricant. Castor oil is better for axles in the winter time, and black lead with it is a help at any time.

Statement of the Public Debt of the United States, September 1, 1879.

Totals	$64,623,512 00	$646,235 12

Interest paid by United States, $43,712,450 58; interest repaid by transportation of mails, &c., $12,710,198 61; balance of interest paid by United States, $31,002,251 97.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, August 30, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

Total issues of 4 per cent Loan	$740,795,300 00
Amount not disposed of	726,700 00
Total amount authorized	$741,522,000 00

Called Bonds.

There were redeemed during the month of August of called bonds, $37,595,400, as follows: Loan of 1858, $5,000; 5-20s, $11,593,900; 10-40s, $25,996,500; of the proceeds of which $25,049,418 was paid by check, and $13,155,376 08 was credited in loan account to the depository banks. The balance on loan account in the banks July 31 was $86,537,170 11; at the close of business August 30 it was $25,520,970 15; showing a reduction of the balance during the month of August of $61,016,199 96. The amount of called bonds outstanding September 1, 1879, was $43,846,074.

☞ The Commissioners of Montgomery County, Penn., have resolved to call in all county bonds on the first day of April, 1880, and re issue new coupon bonds payable at any time within ten years, at 5 per cent interest, payable semi-annually on the 1st day of April and October. All bondholders who hold bonds of the issues of 1868, 1870, 1874 and 1876 are to have the preference in exchanging the same.

American Railroad Journal.

Saturday, September 6, 1879.

Financial and Commercial Affairs.

In the financial line, the reports are of somewhat more encouraging tenor, representing a generally stronger range of values at the Stock Exchange, on a comparatively liberal volume of transactions; an active inquiry from investment sources for the better class of interest bearing securities; a continued free influx of foreign specie, as an offset to the extraordinarily large exports of domestic produce; and less of serious disturbance in the course of Money in the local market, with less urgency shown by the more prominent of the borrowing interests. The quotations to responsible Stock Exchange borrowers at the close were from 5@7 per cent, and to the dealers in the public funds at 4@6 per cent per annum, (exceptional negotiations having been reported above, and under our figures,) while the best class of mercantile credits were rated at 6@7 per cent per annum. The U. S. Sub-Treasury coin reserve is now up to $135,698,207, and the currency balance is down to $42,365,655. The City Banks, in their latest weekly exhibit, indicated a further reduction in the loan and discount average of $5,409,800, with an increase in the item of circulation of $115,000. The average of deposits was cut down $7,136,500, chiefly through Treasury bond settlements. The legal tender reserve was also diminished $559,300, and the specie average augmented $53,600. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $3,759,650, or a gain for the week of $1,278,425. The City bank exchanges in cur-

rency reached $476,563,861, or a daily average of $79,427,310. Close on $4,000,000 of foreign specie arrived here during the week, of which aggregate the banks do not appear to have acquired a full proportion. The crop moving requirements yet tell notably on the floating supply of currency. The cable advices are of hardening Money markets in Western Europe, with more or less of revival in commercial and industrial interests, which, however, are yet admittedly far from being in a satisfactory condition. The land and labor agitation in the British Islands seems to awaken grave apprehensions as to the future.

The U. S. Sub-Treasury receipts in August were $138,056,839 (of which $10,870,241 from Customs;) disbursements, $123,071,878, of which $4,286,134 on account of interest on the public debt.

The demand for the favorites of the State Loans has been more satisfactory, and values have been ruling stronger, though variable. Railway Mortgages have met with a better inquiry, and the more substantial loans have shown more firmness. In the line of Railway and Miscellaneous share property the movements have been quite extensive, and the temper of the speculation has been decidedly more confident, as reflected in the upward course of values, despite the manipulations of operators, who have sought to disturb and depress the general market. The unusually strong and encouraging position and outlook of the more important industrial and commercial interests of our own country have served to stimulate business and strengthen values. The dealings as officially reported, which on Wednesday of last week were about 221,000 shares, and on Thursday 145,000 shares, reached on Friday 162,000 shares, receding on Saturday to 120,000 shares, rising again on Monday of the current week to about 178,000 shares, followed on Tuesday by an aggregate of 161,000 shares.

The amount of United States bonds deposited with the U. S. Treasurer at Washington for circulation during the week was $2,226,500. And of United States bonds held for circulation withdrawn during the week $1,484,100. The Treasury Department now holds $355,103,950 in United States bonds to secure the outstanding national bank circulation. The National bank circulation is now $329,379,847 of currency notes and $1,418,840 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $1,340,000.

More inquiry has been noted for Government Securities which have been very well supported in price. At the close on Wednesday the current quotations were as follows:

United States currency 6s, 121; do. 6s, 1880, registered, 103¼@103⅛; do. coupon, 103¼@103⅛; 6s, 1881, registered, 104⅜@104⅝; do. coupon, 104⅜@104⅝; 5 per cents, 1881, registered, 102¼@102⅜; do. coupon 102⅛@102⅜; 4½ per cents, 1891, registered, 104@104¼; do. coupon, 104⅛@104¼; 4 per cents, 1907, reg., 100⅛@100¼; do. coupon, 101¼@101¼.

Foreign Exchange has been quoted a shade weaker, on a moderate show of activity. Bankers' sixty day bills on London closed at $4 80½@$4 82; sight bills on London at $4 82¾@$4 84 to the £ sterling. Cable transfers, $4 83@$4 84½.

The specie outflow last week was only $222,140, (of which $185,438 in Mexican silver to Liverpool) making the total exports of specie hence since January 1, 1879, $12,120,241, against $10,209,735 the same time in the preceding year. The imports of specie at this port last week were given as $3,002,583, and since January 1, 1879, have been $12,605,251 against $14,838,285 same time in the preceding year. The steamship Canada, on Tuesday, of this week, brought hither $1,200,000. The Customs drain for gold in the local market reached $3,061,911 or an average of about $510,320 per day. The week's imports of Dry Goods and general merchandise were to the specie value of $6,702,469 (of which $2,608,069 of Dry Goods), as against $6,120,801 the corresponding week of 1878. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the extraordinarily large aggregate value of $9,982,687 against $7,625,433 same week 1878, making the total exports of produce since January 1 this year $221,035,748, against $182,785,057 same period of 1878.

Increased activity in most commercial interests has been reported, since our last. The leading kinds of Produce and Merchandise have been more freely dealt in, but values have been more or less unsettled. Breadstuffs have been more sought after. Wheat and Corn have been comparatively brisk, leaving off more firmly. Wheat formed an unusually prominent feature in the exports hence during the week. Provisions have shown considerable animation, closing generally stronger. Naval Stores and Petroleum have been moderately inquired for. Tobacco has been in request. Wool quite active. A livlier movement has been reported in Dry Goods at genera ly firm prices. Hardware has been attracting increased attention. Boots and Shoes have been of ready sale at full prices.

An active movement has been reported in Cotton in the option line, at however, very unsettled prices; falling severely on Saturday and Monday and rallying sharply on Tuesday, closing with indications of continued firmness at our quotations. Early deliveries have been moderately sought after at lower figures, leaving off rather more steadily. Low Middlings closed for prompt delivery at 11 13-16@11 15-16; Midlings at 12⅛@12¼. Options left off for September basis of Middling at 12.13@12.14; October at 10.92@10.93; November at 10.49@10.50; December at 10.42; January at 10.50@10.51; February, 10.60@10.62; March, 10.71@10.73. The crop movement for the year ending Sept. gives receipts of 4,456,000 bales, against 4,253,000 bales in the preceding year. Exports from all the shipping ports year ending Sept. 1, 2,057,000 bales to Great Britain and 1,363,000 bales to the Continent, against 1,998,000 bales to Great Britain and 1,331,000 bales to the Continent in the preceding cotton year.

A good demand has been reported for most kinds of Metals at very firm prices but the light offerings for early delivery worked against free dealings. Of the more important transactions of the week were further sales of 10,000 tons old Rails, part to arrive, at $26 50@$27.

A restricted business has been reported in the line of Ocean freights and rates have been quoted generally weaker, the much more liberal offerings of accommodation for early use having further depressed the market. Grain room on berth for Liverpool closed at 7@7¼d. by steam, and 6½@7d. by sail; for London, at 7¾@8d. by steam. Provisions by steam for British ports at 27s. 6d.@42s. 6d. Grain tonnage for Cork and orders, at 6s. and proportionately for the Continental ports. Through freights have been more active, and quoted firm, on the basis of the recently revised schedule.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New Coal Railroad.

The survey of the projected railroad from Pittston to Hawley, through the Moosic Mountains, the new coal outlet for the New York, Lake Erie and Western Railroad, has been completed, and the work of grading has been begun. The road, which will be about fifty miles in length, will be built by a party of English capitalists at an aggregate cost of a million dollars, the estimated cost per mile being about $20,000. The object of its construction is to afford the Erie Company an independent outlet for its coal from the Wyoming Valley, where it has 2,000 acres of rich, undeveloped coal lands south of Scranton. At present the Erie's coal is principally shipped from the valley over the Delaware and Hudson gravity road to Honesdale, but this portion of the Delaware and Hudson Canal Company's highway is fully taxed with its own shipments. The projected road will connect with the Lehigh Valley Railroad at Pittston, and the Erie Railway at Hawley, thus affording fine facilities for freight and passenger traffic, as well as for coal shipments from this section.

☞ The new 5 per cent 20 year bonds of the District of Columbia are now being issued by the Treasury, and the semi-annual interest will be paid in January and July at the Treasury in Washington or the Sub-Treasury in New York. The interest on the registered bonds will be paid by check.

☞ The holders of the Virginia Midland Railroad bonds who have assented to the reorganization of the company on the plan lately submitted at a meeting held in Baltimore, are requested to meet at the Mechanics' Bank in that city on the 16th instant, for the purpose of selecting trustees to carry out the different provisions of the scheme.

☞ The monthly dividend of 50 cents per share on stock of the Standard Consolidated Mining Company will be paid on the 12th inst. at the Bank of Nevada agency, 52 Wall street; transfers close on the 6th inst.

☞ Madison county, Va., has voted a subscription of $50,000 for the extension of the Potomac, Fredericksburg and Piedmont Railway to the county seat. This road is owned in Philadelphia and Pittsburg, and is in operation forty miles.

☞ A contract has been closed between the president of the James River and Kanawha Canal Company and Messrs. Mason, Shanahan and Hoge, for the grading, masonry and trestle work on the Clifton Forge railroad.

☞ The Chicago and Eastern Illinois Railroad is building an independent line from Dalton, its present terminus, to Chicago, which is to be known as the Chicago and West Indiana railroad.

☞ The first interest will be paid on the bonds of the newly organized Indiana, Bloomington and Western Company on the 1st of October.

Finances of the City of New York.

The annual report of the Finance Department for the year ending August 1, 1879, was issued by Controller Kelly on the 29th ult. The report shows that the total receipts of the City Treasury during the year were $69,680,964 42 and the disbursements $68,264,834 64, leaving a cash balance of $1,416,129 78. The receipts of the "sinking fund for the redemption of the City debt" reached $13,400,031 76, while the expenditures were $13,285,741 21, the balance being $114,290 55. "The sinking fund for the payment of interest on the City debt" received $2,698 961 45 during the year, and paid out $1,704,375 13, leaving a balance of $994,586 32. The report gives a tabular statement of the bonded debt of the City. It says that the net bonded debt, except revenue bonds, on August 1, 1879, was $105,255,783 95, while it was $109,388,128 85 on the corresponding date of the previous year. Of this decrease, the sum of $1,896,362 44 comes from the accumulations of the sinking fund. The revenue bonds issued in anticipation of taxes amount to $19,623,075 50. Reference is made to the refunding of $6,900,000 of City stocks, bearing 6 and 7 per cent interest, into consolidation stock, bearing 5 per cent, under the Bonded Indebtedness act, passed by the Legislature in 1878. The sinking fund investments are then explained, and the report shows that the amount of City stocks and bonds held by the Commissioners on July 31, 1879, was $32,021.240 03, which, with the cash balance in the "sinking fund for the redemption of the City debt," $114 290 55, makes the total amount standing to its credit on that date $32,-135,530 58.

Allusion is made to the Brooklyn Bridge and the cost so far to this City of its construction. The report says that $600,000 has been paid to the Trustees since the decision of the Court of Appeals in favor of the Trustees' claims in March last, making the total amount $3,600,000, for which bonds have been issued. The balance unpaid is $566,666 66, subject to deductions for interest on the bonds, as provided by the statute of 1875. The report compares the amount of appropriations made in the final estimates for all purposes for the years 1878 and 1879. The appropriations for the expenses of the City Government, including State taxes and the payment of principal and interest on City debt, in 1878 was $30,104,077 12, and in 1879 it was $30,007,097 20. In addition to the appropriations made by the Board of Estimate and Apportionment, embraced in the final estimate for 1879, there will be required to be added by the Board of Supervisors a sum amounting, as estimated, to about $240,-000, for appropriations made under special acts passed at the last session of the Legislature, for the purpose of enlarging and extending the supply of pure water to the City, and for other purposes. In referring to the tax levy for 1879, the report says that the amount to be raised cannot be exactly determined, and that it will slightly exceed the total amount of taxes for 1878, on account of the additional appropriations made by the Legislature. The rate of tax for 1879 is estimated at 2.58 per cent. The rate last year was 2.55 per cent.

The total arrears of taxes on real estate amounted to $9,514,102, and the arrears of Croton water rents to $180,026 49. The total amount of personal taxes remaining unpaid was $11,631,027. The balance of assessments for local improvements uncollected was $10,627,537 57. These large arrears are accounted for by the passage for several years past of acts by the Legislature extending the time of payment of taxes and assessments, and reducing the interest on arrears. During the last year real estate belonging to the City, and not required for public use, was sold by authority of the Sinking Fund Commissioners, the sales yielding a total of $301,800. The City holds mortgages on property sold by the Sinking Fund Commissioners to the extent of $537,477. When the mortgages are paid off the proceeds go into the "sinking fund for the redemption of the City debt," the same as the amount paid for City property, and until these payments are made the amount due to the City on mortgages does not appear to the credit of the sinking fund.

The report is accompanied by tables and schedules showing in detail the debt of the City from 1870 to 1878, inclusive, the securities held by the sinking fund, the assessed valuations of real and personal estate, and the tax rates of past years.

Panama Canal.

The following is M. De Lesseps' circular to the correspondents of the Compagnie Universelle Du Canal Interoceanique, to its founders and subscribers:

The issue of 300,000 shares, which took place on the 6th and 7th inst. in Europe and America, has not been taken up. In accordance with clause 82 of the statutes of the Interoceanic Canal Company I might call a general meeting of the subscribers and, with their co-operation, form a universal company for the piercing of the American Isthmus. But, feeling confident of ultimate success, I shall wait until light shall have been thrown on the attacks directed against our work at the last hour, with a view to check the favorable impulse which had shown itself at first. The arguments of our opponents may be thus summed up. On the one hand they have exaggerated the expenditure and underrate the receipts, with a view to show that though the opening of a new maritime pathway to commerce and civilization was a good one in a business point of view it was not likely to pay. On the other hand it has been attempted to show that the scheme would fail through the hostility of the United States of North America. To the first argument the able contractor who removed the bar of El Ghizeh in the Suez Canal has undertaken to reply. M. Couvreux and his associates, to whom are due the great works for the regular flow of the Danube and the enlargement of the port of Antwerp, are about to undertake at their own expense a fresh survey, with a view to the execution of the Interoceanic Canal. They have made up their minds to undertake the work either by contract or at their own risk at my choice, and will permit no doubt to subsist as to the receipts showing a surplus over the expenditure. As to the second objection, I shall myself deal with it in a trip I am about to take to the United States. It is only on my return that I shall constitute the Universal Company in virtue of the important and liberal concession conceded by the independent government of the United States of Colombia. The subscribers who in Europe and America have responded to my appeal by paying up fifty-five francs per share can from this date have their money returned. No deduction will be made. They will receive scrip which on the formation of the company entitles them to the number of shares they applied for without reduction. The money left unclaimed will be lodged at the Bank of France. A half-monthly bulletin, the first number to appear on September 1, will keep the founders of and subscribers to the canal informed of all that concerns them during the preliminary works.

FRANK DE LESSEPS.

Paris, August 14, 1879.

Motors for Street Cars.

The Third Avenue Railroad Company has recently placed on its line several of the cars of the Pneumatic Tramway Engine Company. They are propelled by compressed air, which is stored up in reservoirs placed in the unused space under the floor and seats. The reservoirs are charged at one terminus of the route by a "compressor plant," and the car is then ready for a run of twelve miles. It appears like an ordinary car, but is larger. A speed of twelve or fifteen miles per hour can be attained, and the car can be stopped within its own length. The speed is regulated by a driver, who, by the means of two levers, can start and stop it with ease. It is thought that the cost of operating these motors will not exceed one-half the cost of running cars by the present method, and that they will enable the surface roads to compete on favorable terms with the elevated roads.

RICH SPECULATIONS.

A brakeman on a Western railroad placed $50 in a combination, which turned a profit of 3⅞ per cent, equal to $387 50 per one hundred shares, netting a profit of $193 75, in addition to the $50 he invested. A conductor made $1,176 24 in two combinations. The superintendent of an Eastern railway made $16,210 13 in three combinations. Others have also made large profits. This system of stock speculations consolidates the interests of thousands into one whole, dividing the profits pro rata every thirty days. The combinations handled with the best skill and experience, attain great success in the stock market. From $25 to $10,000 can thus be invested with vast advantage. The new explanatory circular, with "unerring rules for success," mailed by Messrs. Lawrence & Co., Bankers, 57 Exchange Place, New York City.

☞ The Centreville (Md.) Record says that the corps of engineers who had charge of the surveys of the ship canal across the peninsula have reported in favor of the route from Queenstown, situate at the head of a creek of the same name, in the lower part of Queen Anne county. The route surveyed is from Queenstown to the Delaware Breakwater, at Lewes, a distance of about 50 miles.

☞ The southern portion of a new Alpine railway to connect Italy and Austria was opened at Ponteba, in the Venetian district of Udine, on the 25th of July. The new line, which runs from Tarvis by Pontafel and Pontoba to Udine, will, when it is altogether opened for traffic, be a most valuable addition to the facilities of communication between Austria and Germany and Italy.

☞ It is stated that the Illinois Central Railroad Company will immediately proceed with the building of the New Orleans Pacific Railway. The project of the Illinois Central Railroad embraces the connecting of Baton Rouge with Pontchatoula, on the line of the Jackson road.

☞ The Messler system of keeping books, etc., will be adopted on the Jeffersonville, Madison and Indianapolis Railroad on the 1st of October

Railways of Russia.

The unpunctuality, disorder and general mismanagement of the Russian railways became some time ago so notorious, and the consequent complaints of their failure to perform the work for which they had been constructed were so many and so bitter, that a Commission was appointed shortly before the late war broke out to investigate their condition. This Commission has now made its report; and, after expressing an opinion that the shortcomings complained of are due to the unsubstantial and faulty construction of most of the lines, to the insufficient supervision exercised over their working, to the lack of adequate amount of rolling stock, and to bad administration, it recommends first, the amalgamation of the existing fifty-three railways with their separate administrations into a few large companies, whereby the cost of management will be reduced and more unity will be introduced into the several lines. Secondly, the Commission recommends the formation of a distinct company, to keep the whole of the Russian railways always supplied with a sufficient quantity of rolling stock. Thirdly, the Commission proposes the establishment of a pension fund for all railway officials, in order that they may be induced to display more zeal; and, finally, it is recommended that a general railway law shall be passed, in which the duties, responsibility and rights of every official shall be distinctly defined. In answer to a question as to whether it would be desirable to place all the railways in Russia under the management and control of the State, the Commission reply that, in their opinion, such a step would be more injurious than beneficial. The experiment already tried with the Moscow-Kursk and Odessa line has proved that it is highly inexpedient to place a railway under the administration of the Russian Government, while the existing Government inspection of railways is also a notorious failure.

Selling Stocks "Short."

Judge Thayer in the Court of Common Pleas of Philadelphia, in a suit brought to recover advances made by a broker to enable a customer to sell stocks "short," has decided against the claim, on the ground that where a broker, employed to effect wagering contracts on the prices of stocks, advances his own money at the request of a defendant to settle differences in stocks, the broker in such case cannot recover from the defendant the amount advanced for such a purpose. The principle upon which this case is decided was laid down recently by the Supreme Court in the case of Fareira vs. Gobell. This was an action by a broker upon notes given by the defendant for money advanced by the broker to cover the defendant's losses upon wagering contracts in stocks which the broker has made for the defendant at his request. The Judge before whom the case was tried charged the jury thus:—"It is said that one who lends money knowing that the borrower intends to gamble with it, may recover it back. This may perhaps be true as between such a borrower and lender, but I am clearly of opinion that one who should undertake to make a bet or a wager for another, and advance the money staked, would have no right of action against his principal in the event of loss, and I can see no difference between such a case and that of the agent who renders services and expends money in conducting any other gambling operation." This charge was excepted to, on appeal to the Supreme Court, but that tribunal affirmed it, and it stands as the law of Pennsylvania upon stock wagering contracts.

Canal Business at Buffalo.

The Canal Collector at Buffalo furnishes the following statement of the canal business of Buffalo for the month of August, and since the opening of navigation during the years 1878 and 1879:

Clearances during August, 1879	1,380
Clearances during August, 1878	1,212
Increase in 1879	168
Clearances from opening of navigation to Aug. 31, 1879	4,180
Clearances from opening of navigation to Aug. 31, 1878	3,920
Decrease in 1879	260
Amount of tolls for August, 1879	$97,647 23
Amount of tolls for August, 1878	82,691 02
Increase in 1879	$14,956 21
Amount of tolls from opening of navigation to Aug. 31, 1879	276,780 77
Amount of tolls from opening of navigation to Aug. 31, 1878	337,519 85
Decrease in 1879	$60,739 08

☞ The foreclosure cases upon the first and preference mortgages of the Portland and Ogdensburg Railroad came before Chancellor Powers, at St. Johnsbury, Vt., on the 28th ult., pursuant to adjournment from July 20. No additional evidence had been taken, and counsel for Amherst College announced they should submit to such decree as the trustee asked for. Judge Poland, trustee, claimed the foreclosure of both mortgages, and the Chancellor granted the same. The lien claimants' bill was dismissed *pro forma*, and several parties entered an appeal.

☞ Among the recent orders received by Riehle' Bros., proprietors of the Philadelphia Scale and Testing Machine Works, are one mammoth beam for a large Russian manufacturing establishment, to weigh 120,000 lbs.; also 20 twenty-bushel hopper scales for a new elevator being built in New York. The value of these scales is about $4,000. This firm say they were never busier, and the prospects are that the improvement is permanent.

☞ The actual earnings of the Atchison, Topeka and Santa Fe Railroad for six months to June 30, 1879, $2,753,017 64; actual earnings for corresponding time in 1878, $1,508,577 09; increase $1,244,440 55. Actual land sales for six months to June 30, 1879, $347,419 02; actual land sales for corresponding time in 1878, $599,701 87; decrease $252,382 85. 1,048 miles operated in 1879; 786 miles operated in 1878.

☞ The directors of the Burlington, Cedar Rapids and Northern Railroad adjourned on the 30th ult. without taking any action concerning the proposed lease of their road to the Chicago and Northwestern Railway Company.

☞ The Atchison, Topeka and Santa Fe, and the Kansas City, Topeka and Western Railroad Companies paid their first dividend of $3 per share on the 25th ult. These are cases of wonderful recuperation, as the market value of the stock eighteen months ago was less than $10, and looked upon then as of little intrinsic value, even for the future.

Worthington Pump.

The Wilmington (Del.) Every Evening gives the following as the pumping record for the past month:

The Worthington pump at the city mills ran 29 days, made 507¼ hours, pumped 127,548,160 gallons, an increase of 25,314,200 gallons over August of last year. The increase of the Worthington pump alone was 57,465,800 gallons; the decrease of the water power pumps broken down, was 32,154,600 gallons. The Worthington pump at Cool Spring ran 26 days, made 234½ hours and raised to Rodney street reservoir 10,177,627 gallons.

☞ At the meeting of the British Association at Sheffield, Eng., on the 27th ult., a paper by Lieut. Bonaparte Wyse was read, setting forth the advantages of the canal route proposed by M. de Lesseps. Lieut. Wyse stated that a convention was agreed upon between the Panama Railroad Company and himself whereby the company permitted and agreed to aid the proposed canal. Some discussion followed, and opinions adverse to the De Lesseps route were expressed by Capt. Rixton and Capt. Cameron, the African explorer.

☞ A correspondent, writing from Annapolis, Md., says that the Annapolis and Baltimore Short Line railroad incorporators are actively engaged in procuring subscriptions to its stock. One of the executive committee recently received subscriptions amounting to $13,000, in addition to which smaller subscriptions are gradually coming in from all parts of the county, and altogether the incorporators seem highly flattered at their prospects.

☞ A new iron steamship for the Old Dominion Company was launched at Roach's shipyard, in Chester on the 28th ult. She is of 1500 tons burthen, and is the fifth ship launched from Roach's yard this year. Two more vessels will be launched from the yard before December, making a total of seven, with an aggregate tonnage of 17,000 tons. Four of these vessels will engaged in the foreign trade.

☞ On the 25th of July the southern portion of a new Alpine railway to connect Italy and Austria was opened at Ponteba, in the Venetian district of Udine. The new line, which runs from Tarvis by Pontafel and Ponteba to Udine, will, when it is altogether opened for traffic, be a most valuable addition to the facilities of communication between Austria and Germany and Italy.

☞ The Treasury Department is in receipt of information to the effect that the Greek Government has raised the import duty on petroleum. As this law has been put into force without previous notice, merchants who have cargoes of petroleum on the way and who have contracts to deliver on the basis of the former tariff will necessarily sustain a heavy loss.

☞ The Pittsburgh, New Castle and Lake Erie Railroad was sold by the Sheriff on the 27th ult. It was sold on an execution for $5,000 held by Jno. W. Chalfant, J. J. Callery and A. M. Brown. The purchasers represent most of the present board of directors.

Swiss Railway Bankruptcy.

A despatch to the London Times from Geneva reports that the National Railway, which failed last year, was sold on Saturday for 4,000,000 francs to a combination of a few Northern Cantons. The cantons and communes, which guaranteed the obligations of the railroad, lose heavily by the failure. Zurich loses 3,000,000f.; Winterthur, 2,000,000f.; Thurgon, 600,000f.; several communes in Zurich and Aargau, 2,000,000f., and a number of bankers lose 5,000,000f.

☞ The Rahului Railroad on the Island of Maui, (Hawaiian Islands,) has been completed to Wailuku, a distance of three miles.

A GOOD PLAN

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and *co-operated* as a *mighty whole*, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $5 to $5,000, or more, can be used successfully. N. Y. *Baptist Weekly*, September 26th, 1878, says: "By the combination system $15 would make $75, or 5 per cent; $50 pays $350, or 7 per cent; $100 makes $1,000, or 10 per cent on the stock, during the month, according to the market." *Frank Leslie's Illustrated Newspaper*, June 29th: "The Combination method of operating stocks is the most successful ever adopted." *New York Independent*, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." *Brooklyn Journal*, April 29th: "Our editor made a net profit of $101 25 from $20 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

NEW YORK, September 2, 1879.

THE STANDARD CONSOLIDATED MINING COMPANY, on the 2d inst., declared their regular monthly dividend of

FIFTY CENTS PER SHARE,

18 New Street.

Securities (in fractional or large quantities) bought and sold on commission; also carried as long as desired on 5 per cent. margin. U. S. Bonds purchased and sold at current market rates free of commission.

Advances made on approved collateral at market rates.

Deposits received subject to check at sight. Interest allowed on all daily balances.

Our office is next door to the N. Y. Stock Exchange, which admits of the execution of orders the instant they are received. The senior partner attends each session of the board, and gives this branch of business the advantage of his long experience and most watchful care. Our office is provided with four telegraph indicators for the use of customers, which record all transactions and quotations at the Exchange as soon as made, an important guide for buyers or sellers of Stocks, Bonds and Governments. Orders executed at the London and San Francisco Exchanges.

Robt. R. Bauer & Co.,

The investigation of frauds on Railway Companies a specialty

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending August 23, as reported by the several carrying companies, amounted to 526,011 tons, against 434,699 tons in the corresponding week last year, an increase of 91,312 tons. The total amount of anthracite mined for the year is 16,053,965 tons, against 9,986,288 for the same period last year, an increase of 6,067,677 tons. The quantity of bituminous coal sent to market for the week amounted to 84,137 tons, against 65,250 tons in corresponding week last year, an increase of 18,887 tons. The total amount of bituminous mined for the year is 2,236,986 tons, against 2,054,404 tons for corresponding period last year, an increase of 182,582 tons. The total tonnage of all kinds of coal for the week is 610,148 tons, against 499,949 tons in corresponding week last year, an increase of 110,219 tons, and the total tonnage for the coal year is 18,290,951 tons, against 12,040,692 tons to same date last year, an increase of 6,250,259 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the third week of August was 131,035 tons, of which 101,180 tons were coal, and 29,855 tons coke. The total tonnage for the year thus far has been 3,705,172 tons, of which 2,844,937 tons were coal and 806,235 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending August 23d were 47,080 tons, and for the year to that date 1,050,593 tons—104,664 tons more than in the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 27,987 tons, for the year 604,657 tons, an increase of 69,514 tons, as compared with 1878. The shipments by the Chesapeake and Ohio Canal for the week were 15,030 tons, and for the season 337,058 tons, a decrease of 2,365 tons as compared with last year. The shipments to the Pennsylvania Railroad were for the week, 4,152 tons, for the year 108,878 tons, an increase of 37,514 tons as compared with 1878. The Reading Railroad Company reports a coal shipment for the week ending on Saturday evening last of 176,000 tons, of which 69,500 tons were sent to Port Richmond, and 28,000 tons were shipped thence.—*Phila Ledger, Sept. 1.*

☞ The Filbert Street Bridge over the Schuylkill River, for the elevated extension of the Pennsylvania Railroad to Fifteenth Street, Philadelphia, will probably be completed before the first of next year.

☞ The contract for building a branch railroad from Springfield to French Creek, Chester county, Pa., has been awarded to Manes McHugh, of West Philadelphia.

☞ The Union Canal of Pennsylvania, running from Reading to Middletown through the counties of Berks, Lebanon and Dauphin, is to be sold at Reading on the 4th of October.

TO MINE OWNERS.
The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with
WILLIAM EUCLID YOUNG,
(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)
Office 60 Broadway, N. Y.

A. G. DAY,
MANUFACTURER OF
Kerite Insulated Telegraph Wire and Cables.
FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY
has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.
Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS
commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869. until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.
